

Bee Swarm Registration

When we get calls about bee swarms, we will refer to this list of beekeepers who are willing to collect them.

When we get swarm calls, everyone will be notified at the same time via our Facebook Page and our Text Alerts. Beekeepers will be instructed to contact our store to get the contact information for the property owner, where the swarm is at. Collection will be based on the first person to call us back that can immediately leave to go collect the swarm. The second person to call will be the backup person.

Please do not call us about the swarm if you cannot drop what you are doing to go collect it.

Please let us know when you finish your collection of the swarm, so we know it has been saved. We would also like to know how the swarm is doing after you put it into a hive.

For education purposes, we would LOVE any photos or videos you can take of the process so we can share them with readers on our Facebook Page, website and other social media.

Swarm calls generally come to us from Southwest Michigan, but occasionally can be in other parts of the State.

First Name: _____ Last name: _____

Address: _____

City: _____ State: _____ Zip Code: _____

Cell Phone #: _____

Lan Line #: _____

Can we text you on your cell phone? Yes No

Are you equipped & prepared to deal with a swarm call about bees inside a structure, e that may need construction abilities & repair work to remove? YES NO
